We found the classes, material, accommodation and food to be quite good. The teachers are very nice and helping. In the hostel the food was home cooked so it was clean and healthy. We also visited the mountains, Rishikesh and after some time my husband also joined me. Rose Mount is a good school.

Keiichiro Shimonishi, JAPAN

Hello, I am Keiichiro Shimonishi from Japan. I have been to Rose mount twice! Both the times I have thoroughly enjoyed myself. I am a student of High School. My level of English was zero when I first came. It was difficult to adjust the first week but then I slowly learnt my way around. Now I can speak good English. I really had fun time here in India. The weather was lovely, the food was great and made some long lasting friends. I didn't travel much around Dehradun but went to Haridwar with Mr. Madhukar (director Rose Mount). I am coming back again the third time next year!

Ali, OMAN

My purpose of coming to Dehradun, India was not to study English. I had come here to qualify one exam in Petroleum Industry. To qualify that exam good English is required and so I joined Rose Mount. I studied English for six months. I spent my evenings playing badminton or sitting and chatting with friends at the hostel. Because nobody could speak Arabic so I had to speak English to communicate and this really improved my language Skills. Once I finished the course two of my friends also joined Rosemount.

Mohsen, SAUDI ARABIA

My brother contacted the school. That proved to be the turning point. I studied for 8 weeks in the school. My level was elementary when I joined but when I left I was able to read, write, speak English at a preInt level. The best I had was in the hostel. All of us became very good friends. Some of them I am still in contact. My teachers especially the morning teacher was very good. She spent lots of time with me to give correctional classes. I know without her it would have been very difficult. I thank her from all my heart.

Chih Chi, TAIWAN

I came to the school to prepare for IELTS (University of Cambridge Exam) with my friend. We stayed together in the same room. After scoring 6.5 band I am now teaching English in Thailand. The principal himself used to take our classes. We spent around 6 hrs average in the class. The mock test at the end of the course was exceptionally good. We got lots of practise and we were very comfortable on the examination day. I highly recommend Rose Mount.

Adnan, IRAQ

Hi I am Adnan from Iraq. I am a journalist by profession and I have travelled all over the world. For me coming to India was something I had always wanted to do. So when I came across Rose Mount on the net I became very interested in the programmes they had to offer. I did a three week course in English and need less to say that I enjoyed a lot. I went to Mussourie on weekends and did lots of shopping. I also explored the local bazaars. Overall it was fun.

Nima, IRAN

I come from a very different culture. For me coming to India was a big decision. Our society is very conservative. At first it was difficult for me to adjust but the director and his family made me feel very comfortable. We used to have five hours of class on a daily basis. On Saturdays we were given tests. So I was kept very busy. Still I managed to see around. Overall the city is clean and the people are very nice. I had to cut short my visit. But I wish I can come again.

Eduardo, SPAIN

I was looking for an unusual holiday and then was the time I decided to go to India and study English. I found the course effective and affordable. I came around March. I was lucky I could participate in the Indian festival of colours – HOLI. I was taken around the city and I could see that everybody was coloured! In the mornings I used to go for jogging with Mr. Madhukar (Director Rosemount). In the day time in the school I used to study English. It was a great experience.
